

## COVID-19 INFORMATION

# Consult your doctor!

*“Feeling a fever... coughing... maybe it’s COVID-19? ...”*

If you think this, don’t just take some cold medicine; consult your regular doctor or get examined at a nearby clinic.

- ◇ **Inquire via telephone** before getting examined.
- ◇ If needed, you can get a COVID-19 test at a clinic.

If you don’t know what to do:
